### Identification and Ownership (Page iv)

November 27, 1998

Mr. Frank Dart, Clerk  
Maribel Water and Sewer Utility  
Maribel, WI 54229

1997 Analytical Review DWCCA-3360-PJL

Dear Mr. Dart:

The Public Service Commission (Commission) is in the process of completing an analytical review of your utility's 1997 annual report. The purposes of an analytical review are to detect possible reporting or accounting related errors and to identify significant fluctuations from established trends in reported data not sufficiently explained in the annual report. It is our hope that our review will supply information that will enable us to better provide guidance to your utility regarding proper utility accounting and the preparation of future annual reports. In order to complete this review, we request the following information:

1. Paragraph No. 3 of our letter dated December 5, 1996, with regard to analytical review of the 1995 annual report, authorized a revised list of depreciation rates which were enclosed with that letter, to be effective on January 1, 1997. Based upon depreciation accruals on page F-7, lines 4-9, these revised rates were apparently not used during 1997. Enclosed with this letter is a copy of the new depreciation rates. Please confirm that these depreciation rates will be used beginning in 1998.

2. Please provide a street address or P.O. Box for the utility as well as the name of the individual at Jonet & Fountain who prepares your report.

3. In item number 1 of your letter of September 23, 1997, you state that hydrant and valve operation was completed and recorded yearly by the utility. Please provide the number of hydrants operated during the year, the number of distribution system valves end of year and the number of distribution system valves operated during the year for the years 1993 through 1997.

4. During our review, we noted that the status for several schedules on the Schedule Listing in the electronic annual report was not changed from "not started" and/or "in progress" to "complete". It is important to change the status for all schedules, whether the schedule is left blank or not or is entirely derived from other schedules. That allows the PSC to determine that schedules have been finished, and, where left blank, were intentionally left blank rather than simply overlooked. Staff has changed all schedules' status to "complete" in our electronic copy. Please indicate if any "not started" schedules should have had data or if any "in progress" schedules were not complete. If any schedules were not complete or should not have been blank, please provide that data.

5. Please explain why there is not any net investment in meters charged to sewer department reported in account 474, Other Water Revenues on page W-4.

---

We appreciate your cooperation in providing the above information. These recommendations are intended to provide accounting assistance and should not be construed as criticisms of utility personnel. If you have any questions, please feel free to contact me at (608) 267-9198. Please respond within 30 days of this letter. If we have no questions regarding your response, you can consider the review closed.

Sincerely,

## WATER OPERATING SECTION FOOTNOTES

---

### Water Operation & Maintenance Expenses (Page W-05)

Account #650 - Repairs of Water Plant - Account increased in 1997 due to no major plant repairs in 1996.

---

### Water Services (Page W-16)

Property owners are responsible for the entire cost of service additions.

---

### Meters (Page W-17)

No meters were tested during 1997. It is the policy of the utility to periodically replace meters rather than testing them.
